

Interpret, Innovate, Inspire

One size does not fit all when it comes to managing healthcare costs. Your clients want different and sometimes conflicting outcomes. To deliver, you need solutions based on a deep understanding of their needs, and sophisticated technology that can drive the utmost flexibility.

MultiPlan leverages our three decades of experience, extensive analytics and advanced technology to interpret the needs of our clients, and offer innovative ways to address them.

Healthcare payers in the commercial health, government and property and casualty markets use MultiPlan services to craft solutions to reduce their cost of medical care, improve competitiveness and inspire positive change.

Let our technology-enabled services be your cost management solution building blocks.

Payment Integrity Services

Between analysis and payment we pause to examine, taking payment accuracy well beyond traditional automated approaches.

- Pre-payment services
- Post-payment services

Network-Based Services

With today's provider networks, Flexibility is the new Quality.

- Primary PPO networks
- Complementary network
- Specialty networks

Analytics-Based Services

Sometimes the best way to reduce the cost of care is to take cues from what the data tells us.

- Negotiation services
- Pricing services
