

# Welcome to Prescription Savings

When you switch to Scripius, you get a full-service Pharmacy Benefits Manager (PBM) that provides cost savings, superior service, and complete access to claim-level data. Plus, we're so confident your switch will be easy, we give you a first-year savings guarantee and a money-back satisfaction guarantee.

## You get the least expensive price tag.

Our five-year average Per Member Per Month (PMPM) cost from 2016-2020 was \$66.65, and we haven't found a lower PMPM in the market.<sup>1</sup> PMPM is the most accurate price tag because it includes all your costs: administrative fees, clinical programs, network discounts, rebates, maximum allowable cost lists, and ingredient costs. It's the real price tag you're paying.

## You get clinical programs that work.

Beyond achieving a high generic utilization rate, our pharmacist team works to save you money in all aspects of your drug spend. Our team secures enhanced rebates and renegotiates network contracts, and they implement clinical programs like our medication management, biosimilars, and opioid management programs. All in all, our programs equated to **MORE THAN \$54 MILLION IN SAVINGS.**

PROGRAM	2021 SAVINGS
Medication Management	\$20.9 Million
Biosimilars	\$2.9 Million
Enhanced Rebates	\$11 Million
Opioid Management	\$2 Million
Network Negotiations	\$18 Million
<b>TOTAL</b>	<b>\$54.7 MILLION</b>

## You get agile customizations with speedy market adjustments.

It's a volatile marketplace and you need a PBM that can make dynamic reactions to surprise price increases and new pipeline medications. While some take 45 days to react to marketplace changes (the time lost can cost clients thousands of dollars), we can often make changes on day one.

## You get guaranteed savings in year one.

We are so confident we can save you money that we guarantee it. If you share your data and let us reprice your claims, we will give you a first-year savings amount that we will guarantee. Email [GetSavingsNow@Scripius.org](mailto:GetSavingsNow@Scripius.org) to start the conversation.
